LCS Technology Acceptable Use Policy

Updated 1/25/2018

Introduction

Liberty Christian School has a commitment to provide programs for students to develop awareness, and a degree of proficiency, in the understanding and use of technology. Our goal is to integrate technology into many aspects of a student's experience at LCS so that he/she can become a life-long learner and user of these resources. Our technological equipment is located in all of the classrooms and in other specialized areas of the campus. There has been a major investment of funds in order to provide our students with the appropriate technological resources for their education. Desiring to be good stewards of God's provision for LCS, we have formulated this Acceptable Use Policy (AUP) for all persons involved in using school technology. As an overriding principle, we require those using school technologies, to exercise Godly discernment and judgment, be willing to follow stated procedures, and show consideration to both the equipment and others in its usage. It is to be understood that there will be serious consequences for any inappropriate use, deliberate damage, or failure to follow directions in handling the equipment, including hardware, software, printers, scanners, cameras, etc. Willful destruction of school property is considered vandalism and will be dealt with in accordance with the LCS Discipline Policy. In addition to appropriate discipline, restitution will be required for repairs or replacement of damaged equipment. Persons willfully or maliciously damaging, or violating this AUP will lose the privilege of using the school’s technology in the future.
